Professional Summary

Results-driven Senior Software Engineer with over 12 years of experience designing and building scalable web and enterprise applications across government and higher education sectors. Proven expertise in leading front-end and back-end development using JavaScript, PHP, Vue, React, Laravel, and modern CMS platforms. Adept at software architecture, API design, authentication (OAuth2, JWT, SSO), and database modeling. A strong advocate of agile methodologies, accessibility standards (WCAG), and DevOps workflows. Seeking to contribute as a Lead Developer or Senior Full stack Engineer in building future-ready platforms.

Technical Skills

- Languages: JavaScript, PHP, Python, Java, C#, C/C++, Shell Scripting
- Frameworks & Libraries: Vue.js (2/3), React, AngularJS, Node.js, Laravel, Zend, Express
- Testing & CI/CD: PHPUnit, Vite, Git, TFS, Jenkins
- Databases: PostgreSQL, Oracle, MySQL, Couchbase
- CMS: Drupal 9, Adobe Experience Manager (AEM), WordPress
- DevOps & Tools: Docker; AWS (EC2, RDS, Aurora, IAM, S3)
- Protocols & Auth: REST APIs, OAuth2.0, JWT, SSO
- Web Technologies: HTML5, CSS3, Bootstrap (v3–5), JavaScript (ES6+), JSON, AJAX

Professional Experience

Senior Developer

Qualtrix LLC – Federal Contractor supporting the U.S. Census Bureau (Mar 2024 – Present)

- Orchestrated end-to-end deployment pipelines by translating design specs into Node-RED workflows, deploying with Jenkins, and monitoring release health through Argo.
- Lead modernization of legacy SAS applications into a secure, scalable Single Page Applications using Containerized Vue.js, Laravel, and PostgreSQL.
- Designed and implemented RESTful APIs and reusable UI components, aligning with federal security and accessibility mandates.
- Integrated Single Sign-On (SSO) authentication and maintained architectural documentation for cross-team enablement.
- Developed Python scripts to automate ETL processes, updating PostgreSQL and Oracle tables with the latest SAS data.
- Built Java based processes to transform large input files.
- Spearheaded migration of containerized on-premise applications to AWS, leveraging ECS, RDS, and IAM for scalable, secure cloud deployments.
- Built Fast API-based APIs exploring lightweight alternatives to Laravel for future development.
- Designed modular Vue.js frontends for experimental dashboards and applications.

Programmer Analyst

I3GlobalTech (Contract) – Federal Contractor supporting the U.S. Census Bureau (Mar 2023 – Feb 2024)

- Migrated mission-critical internal trade applications from SAS to PHP/Vue-based web stack.
- Designed scalable backend architecture using Laravel and Oracle, ensuring high-performance data mapping.
- Led frontend development efforts for multiple internal modules using Vue.js.

Web / Mobile Developer

Old Dominion University (Oct 2016 – Feb 2023)

- Architected and built RESTful services and web interfaces for university-wide platforms, including ODU Mobile App and the Online Virginia Network.
- Developed personalized student dashboard modules with secure OAuth2-based service integrations.
- Spearheaded CMS development using Drupal 9 and AEM to enhance accessibility and streamline publishing workflows.
- Created internal APIs for form systems and mobile integrations using Node.js and Laravel.

Graduate Assistant – Student Web Developer

Old Dominion University (Jan 2015 – Sep 2016)

- Developed key modules for MRA including login, survey enrollment, push notifications, and secure API endpoints.
- Built AngularJS frontends and PHP/Zend backends for University App Store with user feedback features.

Software Developer

Cognizant Technology Solutions (Oct 2013 – Dec 2014)

- Delivered .NET-based internal enterprise tools including employee registration, room booking systems, and job portals.
- Wrote optimized stored procedures and contributed to data migration initiatives.
- Practiced Agile/Scrum methodologies and participated in cross-functional team projects.

Education

Master of Science in Computer Science

Old Dominion University, Norfolk, VA — Aug 2016

GPA: 3.6 / 4.0

Bachelor of Technology in Electronics and Computers

Sreenidhi Institute of Science & Technology, JNTU, India — May 2013

GPA: 3.5 / 4.0
